

Announcing

Stereotactic Guided Vacuum Assisted
Mammotome Biopsy

At

Carolina Breast Care Specialists

4414 Lake Boone Trail, Suite 211
919-741-5966

Advantage to the patient

- State of the art minimally invasive biopsy procedure using digital mammography technology
- Most comfortable padded table available
- Availability to full range of patients (small breasts, deep lesions)
- Procedure performed in a comfortable familiar office environment
- Potential less out of pocket expense (copay vs. coinsurance)

Advantages to the referring physician

- Easy quick access and scheduling
- Comprehensive evaluation of your patient including risk assessment and unbiased decision on best biopsy option (ultrasound vs stereotactic guided) for your patient
- Quality feedback and follow up of normal and abnormal results
